OFFICIAL PRIVACY POLICY & STATUTORY DATA PROTECTION INSTRUMENT
COMPLIANT WITH THE DIGITAL PERSONAL DATA PROTECTION ACT, 2023 & DPDP RULES, 2025

1. INTRODUCTION

EZY1 (“EZY1”, “we”, “us”, “our”, “Company” or “Platform”) operates a technology-enabled unified ecosystem connecting users with independent businesses, professionals, service providers, healthcare institutions, retailers, transport operators, delivery partners, travel agencies, local merchants, artisans, and other participating organizations.

This Universal Privacy Policy explains how EZY1 collects, processes, utilizes, stores, shares, protects, and governs personal data across all touchpoints, platforms, mobile applications, web portals, and services within the entire EZY1 ecosystem.

This Policy applies to all digital and physical operations including: EZY1 Customer Websites & Mobile Apps, Partner Portal, Partner Accounts, Delivery & Driver Accounts, Healthcare Accounts, Orders, Bookings, Payment Processing, Delivery Coordination, Transport, Local Discovery, Customer Support, and Marketing.

2. WHO THIS POLICY COVERS

This Policy applies to personal information relating to all ecosystem participants:

- **2.1 — Customers / Users:** Individuals who browse, create accounts, purchase goods, book services, schedule transport, request healthcare appointments, or submit reviews.
- **2.2 — Partners & Merchants:** Hospitals, clinics, doctors, nurses, pharmacies, diagnostic labs, restaurants, cafés, supermarkets, travel agencies, hotels, mechanics, plumbers, electricians, domestic agencies, and freelancers.
- **2.3 — Delivery & Logistics Partners:** Delivery riders, drivers, couriers, transport operators, and fleet personnel.
- **2.4 — Partner Personnel:** Authorized employees, representatives, managers, and contractors of onboarded Partners.
- **2.5 — Business & Enterprise Contacts:** Representatives of suppliers, corporate clients, advertisers, and institutional partners.
- **2.6 — Visitors & Public Users:** Individuals interacting with EZY1 websites, apps, or public landing pages without an account.

3. OUR CORE PRIVACY PRINCIPLES

- **DATA MINIMIZATION** — We collect only the personal information strictly necessary for a specified legitimate purpose.
- **TRANSPARENCY & NOTICE** — We clearly explain what data is collected, why it is needed, and how it is processed.
- **PURPOSE LIMITATION** — Data is utilized exclusively for disclosed, authorized, or legally mandated purposes.
- **SECURITY BY DESIGN** — We implement advanced encryption, multi-factor authentication, and robust access controls.
- **USER CONTROL & EMPOWERMENT** — We provide intuitive tools for consent management, data correction, and account deletion.
- **STATUTORY ACCOUNTABILITY** — We maintain comprehensive audit trails and designated grievance redressal officers.

- **STORAGE LIMITATION** — Personal data is retained only for the period required to achieve the purpose or satisfy statutory obligations.

4. APPLICABLE LAW & STATUTORY FRAMEWORK

EZY1 strictly complies with applicable Indian data protection and privacy statutes, prominently including:

- **Core Law** — The Digital Personal Data Protection Act, 2023 (DPDP Act) and the DPDP Rules, 2025 as officially notified.
- **IT Framework** — The Information Technology Act, 2000 and the Information Technology (Intermediary Guidelines and Digital Media Ethics Code) Rules, 2021.
- **Sectoral Norms** — Sector-Specific Regulations governing Telemedicine Practice Guidelines, Pharmacy & Drugs Acts, Consumer Protection (E-Commerce) Rules 2020, RBI Payment Aggregator Guidelines, and Motor Vehicles Aggregator Guidelines.

5. INFORMATION WE COLLECT — OVERVIEW

The categories of information collected depend upon your specific role and interactions across the EZY1 ecosystem.

6. CUSTOMER ACCOUNT INFORMATION

Full legal name, mobile phone number, email address, profile photo, encrypted login credentials, preferred languages, delivery addresses, and communication preferences.

7. PARTNER BUSINESS & KYC INFORMATION

Legal entity name, trade name, registered business address, GSTIN, PAN, shop/establishment licence, bank account and payout details, FSSAI licence, clinical registrations, operating hours, catalogue/menu information, and authorized representative identity proof.

8. DELIVERY & DRIVER PARTNER INFORMATION

Full name, verified mobile number, government identity proof, driving licence details, vehicle registration certificate (RC), commercial vehicle fitness, insurance papers, live telematics GPS location during active orders, and background verification records.

9. HEALTHCARE PROFESSIONAL INFORMATION

Doctor/nurse/therapist full name, National/State Medical Council registration number, educational degrees, clinical specialty, hospital/clinic affiliation, consultation hours, and statutory qualification certificates.

10. CUSTOMER HEALTH & CLINICAL INFORMATION

When booking medical appointments, diagnostic tests, or pharmacy orders, EZY1 processes only the minimum necessary details (e.g., appointment slot, test type, prescription upload). Medical diagnosis and clinical records are maintained directly by the licensed healthcare provider.

11. ORDER & TRANSACTION INFORMATION

Unique order ID, purchased items, quantities, itemized pricing, discounts applied, merchant identifier, timestamp, delivery tracking milestones, and refund status.

12. BOOKING INFORMATION

Travel, transport, hotel, and appointment booking IDs, scheduled dates, pickup/destination coordinates, passenger/guest count, room categories, and cancellation logs.

13. LOCATION INFORMATION (APPROXIMATE VS. PRECISE)

EZY1 utilizes approximate location (derived from IP or network) for general discovery of nearby shops. Precise GPS location is processed only with explicit permission when essential for live navigation, taxi dispatch, and doorstep food/grocery delivery.

14. SERVICE ADDRESSES

Doorstep delivery and on-demand home service addresses (e.g., for electricians, plumbers, home cleaning) shared strictly with the assigned partner only when required for fulfilment.

15. PAYMENT INFORMATION

Transaction identifiers, payment modes (UPI, Net Banking, Cards), payment gateway tokens, and refund histories. Card CVV and full card numbers are handled securely by RBI-authorized PCI-DSS certified payment gateways and are never stored on EZY1 servers.

16. DEVICE & TECHNICAL INFORMATION

Device model, operating system version, browser type, unique device identifiers (UUID), IP address, app version, network provider, and crash analytics logs.

17. APP USAGE & INTERACTION INFORMATION

Search queries, pages viewed, categories browsed, clicks, feature utilization, session duration, and referral URLs to optimize platform reliability and UX.

18. COMMUNICATIONS & CUSTOMER SUPPORT RECORDS

Customer support chat transcripts, ticket logs, grievance emails, and in-app call duration logs recorded for dispute resolution, security, and quality assurance.

19. REVIEWS, RATINGS & USER CONTENT

Public reviews, ratings, uploaded photos of delivered goods or food, feedback comments, and survey responses submitted by users.

20. INFORMATION RECEIVED FROM PARTNERS

Order completion confirmations, invoice numbers, service delivery proofs, customer feedback, and delivery timestamps provided by merchant partners.

21. INFORMATION RECEIVED FROM THIRD PARTIES

Identity verification checks (e-KYC), fraud detection signals, address geocoding data from mapping providers, and payment status callbacks from banks.

22. PURPOSES FOR PROCESSING PERSONAL DATA

- **SERVICE FULFILMENT** — Creating user accounts, processing orders, matching taxi rides, coordinating deliveries, and scheduling medical appointments.
- **PAYMENTS & BILLING** — Facilitating secure online payments, generating GST invoices, processing refunds, and settling partner payouts.
- **PLATFORM SAFETY & FRAUD PREVENTION** — Detecting account takeovers, verifying documents, thwarting payment fraud, and mitigating fake reviews.
- **CUSTOMER SUPPORT & DISPUTE RESOLUTION** — Investigating grievances, handling refund requests, and providing real-time assistance.
- **PERSONALIZED DISCOVERY & SEARCH** — Showing relevant local stores, remembering delivery addresses, and tailoring search results based on user preferences.
- **SYSTEM RELIABILITY & ANALYTICS** — Monitoring app performance, diagnosing bugs, evaluating network latency, and improving marketplace logistics.
- **STATUTORY & LEGAL COMPLIANCE** — Adhering to tax laws (TCS/TDS), consumer protection mandates, court orders, and law-enforcement requests.

23. USER-PARTNER DATA SHARING PROTOCOL

Data sharing between Users and Partners occurs strictly on a 'Need-to-Know' basis necessary to execute the requested transaction:

- **Restaurant** — Receives order items, customer first name/alias, delivery address (if merchant self-delivers), and order notes. Does NOT receive customer full purchase history.
- **Taxi / Cab Driver** — Receives pickup location, destination, and passenger phone contact (or masked proxy number) during the active ride only.
- **Doctor / Clinic** — Receives appointment slot, patient name, age, and relevant clinical summary provided voluntarily for the consultation.
- **Plumber / Electrician** — Receives customer service address, contact number, and specific repair requirements.
- **Hotel / Homestay** — Receives reservation details, primary guest name, check-in/out dates, and statutory ID proof for guest registration.

24. DATA ACCESS CONTROL & ARCHITECTURAL ISOLATION

ROLE-BASED ACCESS CONTROL (RBAC) ARCHITECTURE

- *Strict Silos:* A Restaurant Partner cannot access medical records, taxi history, or grocery orders.
- *Clinical Privacy:* Healthcare providers cannot access unrelated commercial purchases or mobility history.
- *Delivery Scoping:* Couriers only access delivery coordinates for the duration of the active delivery run.

25. PARTNER PRIVACY OBLIGATIONS

All onboarded Partners are contractually and legally bound to process customer data solely for fulfilling the specific order, maintain strict confidentiality, never sell or export data, and promptly delete data once the service is complete.

26. DELIVERY PARTNER PRIVACY STANDARDS

Delivery riders and drivers are strictly prohibited from photographing customer residences unnecessarily, saving customer phone numbers on private devices, or contacting customers post-delivery.

27. HEALTHCARE PRIVACY & CONFIDENTIALITY

Healthcare Partners must strictly uphold the Indian Medical Council (Professional Conduct, Etiquette and Ethics) Regulations, Telemedicine Guidelines, and DPDP health data standards.

28. EMPLOYEE & STAFF PRIVACY

EZY1 employee and contractor data is processed strictly for HR, payroll, background verification, occupational safety, and statutory labour law compliance.

29. BUSINESS CONTACT PRIVACY

Contact information of corporate vendors, institutional clients, and advertisers is utilized solely for B2B communications, contract execution, and billing.

30. CHILDREN'S PRIVACY & VERIFIABLE PARENTAL CONSENT

EZY1 does not knowingly permit children under the age of 18 to create independent accounts without verifiable parental/guardian consent. Age-restricted categories (e.g. tobacco, restricted medicines) strictly mandate age-gating verification.

31. MARKETING & PROMOTIONAL COMMUNICATIONS

Users may receive promotional updates regarding discounts, new city launches, and local deals only where consented. Users can opt out anytime via the in-app preference center or unsubscribe links. Critical transactional messages (OTPs, order tracking) continue regardless of marketing opt-out.

32. PROHIBITION OF PARTNER DIRECT MARKETING

Partners must not utilize customer phone numbers or addresses obtained via EZY1 for unsolicited off-platform marketing, SMS blasts, or unauthorized promotional campaigns.

33. COOKIES & TRACKING TECHNOLOGIES

EZY1 uses essential cookies for secure authentication, preference cookies for language selection, and analytics cookies to measure site performance.

34. DATA ANALYTICS & AGGREGATION

We utilize aggregated, de-identified datasets to evaluate city-wide logistics efficiency, peak order demand, and app responsiveness without identifying individuals.

35. ADVERTISING & PROMOTIONS GOVERNANCE

In-app sponsored listings are delivered based on aggregate search context. EZY1 never sells raw personal data or unmasked phone numbers to commercial advertisers.

36. FRAUD DETECTION & THREAT MITIGATION

Automated fraud detection algorithms analyze velocity patterns, coupon exploitation, multi-accounting, and anomalous transactions to safeguard the marketplace.

37. AUTOMATED DECISION MAKING & ALGORITHMS

Automated systems assist in optimal route selection, delivery partner assignment, and search rankings. Users have the right to request human review in qualifying dispute determinations.

38. DATA RETENTION SCHEDULE

Personal data is retained only for the duration of an active account, plus statutory retention windows mandated under Indian taxation, corporate, and limitation laws (typically 8 years for invoices and tax audits).

39. ACCOUNT DELETION & ERASURE

Users may delete their account via the App Settings or by emailing privacy@ezy1.site. Upon deletion, personal identifiers are permanently purged or anonymized, except where statutory retention applies.

40. RIGHT TO DATA CORRECTION

Users can review and update their profile details, delivery addresses, and billing credentials directly in the mobile application or Partner Portal.

41. RIGHT TO ACCESS PERSONAL DATA

Data principals may request a summary of personal data processed by EZY1 and the categories of third parties with whom such data has been shared.

42. RIGHT TO WITHDRAW CONSENT

Where data processing is based on consent (e.g. precise GPS location, marketing notifications), consent can be withdrawn instantly via app settings.

43. DATA PORTABILITY

Where mandated under the DPDP framework, users may request a structured machine-readable export of their transaction records.

44. GRIEVANCE REDRESSAL MECHANISM

Privacy concerns and statutory complaints may be lodged directly with our designated Grievance Officer:

Designation	Data Protection Officer & Grievance Officer
Postal Address	EZY1 Legal Dept, [REGISTERED OFFICE FULL ADDRESS], India
Privacy Email	privacy@ezy1.site
Grievance Escalation	grievance@ezy1.site
Statutory Response Time	Within 30 days as mandated by DPDP Act

45. TECHNICAL & ORGANIZATIONAL DATA SECURITY

EZY1 deploys multi-layered security controls including TLS 1.3 in-transit encryption, AES-256 at-rest database encryption, network firewalls, DDoS protection, vulnerability assessments, and strict access logging.

46. DATA BREACH RESPONSE & NOTIFICATION

In the event of a verified data breach impacting personal data, EZY1 will execute its Incident Response Plan, notify the Data Protection Board of India (DPBI), and communicate with affected users as required by law.

47. THIRD-PARTY SERVICE PROVIDERS & CLOUD INFRASTRUCTURE

EZY1 engages vetted third-party vendors for cloud hosting (AWS/Google Cloud/Azure data centers in India), payment processing, SMS gateways, map navigation APIs, and customer service ticketing under strict Data Processing Agreements.

48. THIRD-PARTY PLATFORMS & EXTERNAL LINKS

External websites or payment gateway portals linked from EZY1 operate under their respective privacy policies.

49. CROSS-BORDER DATA TRANSFERS

Personal data is primarily stored and processed within servers located in the Republic of India. Cross-border transfers to cloud providers comply strictly with DPDP Act international transfer guidelines.

50. DISCLOSURE UNDER LAW & GOVERNMENT REQUESTS

EZY1 may disclose personal data to law enforcement agencies or regulatory bodies in response to valid court orders, statutory notices, or legal process.

51. LEGAL CLAIMS & RIGHTS ENFORCEMENT

Data may be processed where necessary to establish, exercise, or defend legal rights, enforce platform terms, or prevent fraud.

52. BUSINESS TRANSFERS & CORPORATE RESTRUCTURING

In the event of a merger, acquisition, asset sale, or corporate restructuring, user data will transition under the continuity of this Privacy Policy.

53. USER SECURITY RESPONSIBILITIES

Users must safeguard their login credentials, never share SMS OTPs with anyone, use strong passwords, and report suspicious activities immediately.

54. PARTNER SECURITY RESPONSIBILITIES

Partners must enforce strict staff access controls, avoid unauthorized downloading of customer spreadsheets, and maintain secure devices.

55. PROHIBITED DATA PRACTICES

Strictly prohibited actions include: selling customer lists, scraping platform content, stalking users, unauthorized marketing, and attempting unauthorized database access.

56. INTERNAL LEAST-PRIVILEGE ACCESS

Internal EZY1 staff access to customer data is strictly segregated based on job function, audited via access logs, and protected by multi-factor authentication.

57. PRIVACY IN LOCAL DISCOVERY

Local store and tourist spot browsing operates via coarse approximate location without requiring precise address profiling.

58. EMERGENCY & AMBULANCE DISPATCH

Emergency transport and ambulance requests prioritize rapid real-time dispatch coordinates to authorized medical responders.

59. MEDICAL EMERGENCY DISCLAIMER

EZY1 facilitates digital connectivity but does not independently provide hospital critical care. In life-threatening scenarios, local emergency helpline (112/108) services should be contacted directly.

60. PROCESSING DATA OF DECEASED PERSONS

Rights regarding deceased individuals are handled in accordance with Indian succession laws and statutory executor authorizations.

61. BOOKINGS BY LEGAL REPRESENTATIVES

Users booking transport or medical services on behalf of family members warrant that they have lawful authorization to provide the passenger's or patient's details.

62. INTER-PARTNER CONFIDENTIALITY

Competitor partners cannot access each other's sales volumes, customer identities, pricing analytics, or proprietary data.

63. BUSINESS INTELLIGENCE & MARKET TRENDS

EZY1 compiles macro-level economic insights, delivery heatmaps, and demand trends using strictly anonymized datasets.

64. ARTIFICIAL INTELLIGENCE & MACHINE LEARNING

AI/ML algorithms powering intelligent dispatch, search recommendations, and fraud screening operate under ethical AI principles and privacy guardrails.

65. PRODUCT ENHANCEMENT & BETA TESTING

Telemetry data and performance logs are utilized to refine app stability, speed up checkout flows, and enhance user experience.

66. ABSOLUTE BAN ON DATA SALE

EZY1 has NEVER sold, and will NEVER sell, rent, or trade personal data to third parties as a standalone commercial commodity.

67. CORE DATA SHARING MAXIM

THE EZY1 DATA INTEGRITY MAXIM

"Collect Only What Is Necessary → Share Only With The Assigned Partner → Process Only For The Specific Transaction → Secure With Industry Encryption → Retain Only As Required By Law."

68. PRACTICAL EXAMPLE: COMPLETE FOOD ORDER LIFECYCLE

Customer places an order → EZY1 verifies payment → Restaurant receives food items & prep notes only → Delivery Partner receives pickup address and customer doorstep GPS coordinates → Upon delivery completion, delivery partner access to location coordinates expires.

69. PRACTICAL EXAMPLE: HOME SERVICE REPAIR

Customer books an electrician → EZY1 dispatches booking → Electrician receives customer name, service address, and symptom description → Work completed → Address contact link expires.

70. PRACTICAL EXAMPLE: DOCTOR APPOINTMENT

Patient selects clinic slot → Doctor receives patient name, appointment time, and voluntarily shared consultation note → Doctor conducts consultation under clinical privilege → Records archived securely in clinic registry.

71. PRACTICAL EXAMPLE: TAXI & MOBILITY TRIP

Rider requests ride → Driver receives pickup landmark → Ride completed → Driver view reverts to generic route summary; exact passenger phone number is never exposed post-ride.

72. PRACTICAL EXAMPLE: PARTNER PORTAL DATA ACCESS

Merchant logs into portal → Sees only its own financial payouts, order history, and store analytics → Cannot view competitor data or unrelated platform customer databases.

73. PARTNER BUSINESS METRICS PRIVACY

Partner turnover figures, commission rates, and banking data are treated as highly confidential commercial secrets.

74. CONFIDENTIALITY OF COMMERCIAL TERMS

Commercial schedules and proprietary operational arrangements between EZY1 and Partners remain strictly confidential.

75. PUBLIC PARTNER PROFILE DATA

Store names, business addresses, menus, price tags, store photos, and verified badges are displayed publicly to facilitate discovery.

76. PUBLIC USER RATINGS & REVIEW DISCLOSURES

User reviews and feedback are displayed publicly under the reviewer's first name/alias. Users should avoid posting sensitive personal information in public reviews.

77. PARTNER DATA RETENTION STANDARDS

Partners must delete customer delivery notes and temporary service logs once billing and warranty periods expire.

78. PERIODIC PRIVACY AUDITS & ASSESSMENTS

EZY1 conducts periodic internal data protection impact assessments (DPIA) and security penetration tests.

79. VENDOR DUE DILIGENCE & COMPLIANCE CHECKS

Third-party SaaS and infrastructure vendors undergo rigorous security evaluations before integration.

80. AUTHORIZED SUB-PROCESSORS

All cloud and technical sub-processors operate under contractual obligations equivalent to this Policy.

81. INCIDENT REPORTING CHANNELS

Suspected security vulnerabilities or privacy concerns can be reported directly to security@ezy1.site and privacy@ezy1.site.

82. ACCOUNT RECOVERY & AUTHENTICATION PROTOCOLS

Account recovery requires two-step verification via registered mobile number, email OTP, and security tokens to prevent fraudulent takeovers.

83. OTP SECURITY & ANTI-PHISHING

EZY1 representatives will NEVER ask for your login password, credit card CVV, or SMS OTP over the phone or email.

84. LOCATION HISTORY MANAGEMENT

Users can review, manage, or clear historical delivery addresses directly within the application.

85. DELETION OF GEOLOCATION TELEMETRY

Granular GPS tracking logs recorded during active deliveries are purged on a rolling basis following order completion.

86. COMMUNICATION ARCHIVING

In-app support messages and chat records are archived for quality assurance and dispute resolution in accordance with statutory retention laws.

87. REVIEWS MODERATION & ABUSE PREVENTION

Automated and manual moderation filters remove abusive language, personal attacks, and fraudulent reviews.

88. SECURITY LOGS & AUDIT TRAILS

System logs containing IP addresses, timestamps, and API calls are maintained to secure platform infrastructure against cyber threats.

89. DATA BACKUPS & DISASTER RECOVERY

Encrypted disaster recovery backups ensure data resilience and business continuity in the event of hardware failures.

90. POLICY MODIFICATIONS & VERSION CONTROL

EZY1 updates this Privacy Policy periodically to reflect technological enhancements, new feature releases, and statutory amendments.

91. NOTICE OF MATERIAL CHANGES

In the event of material modifications, EZY1 will provide prominent notice via in-app banners, email alerts, or portal announcements.

92. OFFICIAL PRIVACY & GRIEVANCE CONTACTS

For inquiries, privacy requests, or grievances, reach out to our dedicated officers:

- **Privacy Support** — EZY1 Data Protection & Privacy Team — Email: privacy@ezy1.site
- **Grievance Officer** — Designated Grievance Officer — Email: grievance@ezy1.site | Address: [REGISTERED OFFICE FULL ADDRESS]
- **Security Team** — Information Security Incident Response Team — Email: security@ezy1.site

93. SUBMITTING USER PRIVACY REQUESTS

Users may submit formal privacy requests (access, correction, erasure) via the in-app Privacy Center or by emailing privacy@ezy1.site with registered account verification.

94. SUBMITTING PARTNER PRIVACY REQUESTS

Partners may request updates to registered business records, licence renewals, or data exports through the Partner Portal.

95. TIMELINES FOR STATUTORY COMPLIANCE

All verified data principal requests are processed and resolved within 30 days of receipt in accordance with the DPDP framework.

96. NON-DISCRIMINATION GUARANTEE

EZY1 will never deny services, charge discriminatory prices, or degrade quality because a user exercised their legitimate statutory privacy rights.

97. THE SEVEN PILLARS OF EZY1 PRIVACY

- **1. COLLECT** — Only what is strictly necessary.
- **2. INFORM** — Provide clear and unambiguous notice.
- **3. LIMIT** — Restrict access via strict role-based controls.
- **4. PROTECT** — Safeguard with modern encryption and firewalls.
- **5. RETAIN** — Keep data only for legitimate statutory periods.
- **6. DELETE** — Permanently erase or anonymize upon request.
- **7. RESPECT** — Honor all citizen and partner privacy rights.

98. FINAL PRIVACY STATEMENT

STATUTORY PRIVACY COMMITMENT

EZY1 connects consumers and merchants across diverse domains—healthcare, local commerce, food, travel, transport, and home services. Operating multiple categories does NOT mean every partner receives access to every user's data. EZY1's architecture is built on purpose-based collection, strict role-based access, minimal necessary disclosure, end-to-end security, and absolute respect for user rights.

— EZY1: One Platform. Everything Local. Absolute Privacy.

99. EFFECTIVE DATE & VERSION SIGN-OFF

This Universal Privacy Policy (Version 1.0) is officially approved, published, and effective as of 21/09/2026.
